

# Docs for UH Blog & Resources

1. Login to admin dashboard

1. Make post as a slider on homepage

a. Create a new post

b. Set featured image

The screenshot shows the WordPress dashboard interface. On the left is a sidebar menu with options like Dashboard, Posts, Media, Pages, Comments, Appearance, Plugins, Users, Tools, Settings, SEO, and Featured Image From URL. The main content area displays a post titled "Homepage post slide content example". Below the title is a paragraph of text about starting a business. On the right side, there is a "Document" panel with various settings. The "Featured Image" section is highlighted with a red circle, showing a button labeled "Set featured image". Below this, there is a "Featured Image" modal window. It has tabs for "Upload Files" and "Media Library". The "Media Library" tab is active, showing a grid of image thumbnails. The first thumbnail is selected. To the right of the grid is the "ATTACHMENT DETAILS" panel, which shows the selected image's name, date, size, and dimensions. It also has fields for "Alt Text", "Title", "Caption", "Description", and "Copy Link". The "Alt Text" field is filled with "Describe the purpose of the image. Leave empty if the image is purely decorative." The "Title" field is filled with "Saatnya-membangun-tim-p". The "Copy Link" field is filled with "https://resources.urbanhire". At the bottom right of the modal is a "Select" button.
